LEGISLATIVE ACTION ALERT

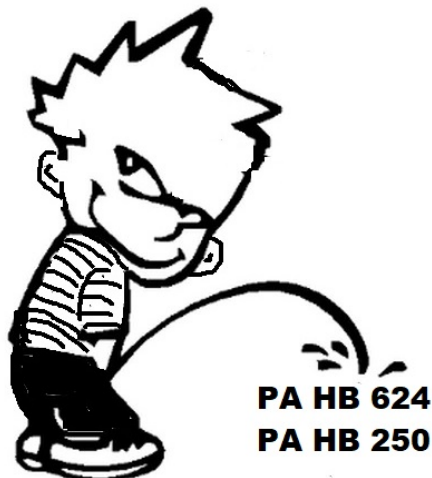

PA House Bill 624 & 250

Doesn't PA politicians have more important issues to address instead of screwing with organized labor?

Certain politicians are pushing to reintroduce PA House Bill 624 from the previous session to amend the Public Employee Relations Act (Act 195 of 1970), to increase the time period a union member has to resign their membership in a public-sector union. Under current law, Act 195 states that a union member can only resign their membership from their representative union during the 15-day period before a collective bargaining agreement ends. There is no requirement for the public employer of the union to notify a member of this right.

There is also a push to reintroduce PA House Bill 250 to provide public notice of public employee collective bargaining agreements prior to approval. The legislation will require any proposed public employee collective bargaining agreement to be made available on the public employers' publicly accessible Internet website within 48 hours. The proposed agreement must be posted online two weeks prior and thirty days following the signing of the collective bargaining agreement. The posting shall include the following information:

1. A statement of the terms of the proposed collective bargaining agreement
2. An estimate of the costs to the public employer associated with the agreement

Tell Your representative the Teamsters are strongly opposed to the reintroduction of PA HB 624 and PA HB 250, and should these bills make it to the Floor, tell your Representative to vote NO on both bills
